

# Residential Construction Safety Courses October 8, 2008

## FREE to contractors in F-M area!

Brought to you by:  
Home Builders Association of Fargo-Moorhead  
& North Dakota Assoc. of Builders

### 1. Fall Protection (8 a.m.- Noon)

-This course will go over fall protection equipment such as lanyards, self retracting lifelines, full body harnesses, beamers, anchorage points, both fixed and portable will be used to give a "hands-on" illustration of the various devices available to help illustrate solutions to what can sometimes be challenging situations in the workplace.

### 2. Excavating & Trenching (12:30-4:30 p.m.)

-This course is designed to provide participants with the "do's and don'ts" of trenching and excavating. Discussion will include the different types of soil classifications and the proper protective systems such as sloping, shoring, benching and shielding that are used to protect employees.

**Only pay for the class if you're taking it for MN credit!**

**Earn up to 8 continuing education credits toward your Minnesota contractor's license for participating!**

• Classes are pending approval by the Minnesota Department of Commerce.

**WHEN:** Wednesday, October 8, 2008
