For Immediate Release

Dabbert elected as National Association of Home Builders Life Director

Fargo, N.D. – Past Home Builders Association of F-M President Don Dabbert, Jr., Dabbert Custom Homes, was elected as a Life Director to the National Association of Home Builders board of directors at its January board of directors' meeting in Orlando.

The HBA of F-M designates National Directors to represent its membership each year on the NAHB board of directors. To become a Life Director with a permanent seat on the NAHB board, a National Director has to attend at least two meetings per year for ten years.

HBA of F-M Executive Vice President Bryce Johnson says, "Becoming a Life Director is a tremendous accomplishment, and Don's representation of our state and local association on the national level has been an incredible asset."

Dabbert has a laundry list of activities and achievements within the HBA of F-M, North Dakota Association of Builders and NAHB. He is a past NDAB president; current NDAB director and past state and local Builder of the Year award winner. He has also served on several local, state and national committees over the years.

Rick Judson, NAHB third vice chairman, thanked Dabbert for his dedication and commitment for attending and participating in NAHB's board of directors meetings for the past 10 years.

"The growth and scope of NAHB is largely due to involved and caring board members," says Judson. "The NAHB senior officers recognize that continuing contributions from involved members will help NAHB maintain the leadership position it enjoys in the building industry."

The HBA of F-M is a non-profit trade association of over 800 members that has been in existence since 1956. Its mission is to provide quality services, benefits and education to members and the community while representing the collective interests of the home building industry.

NAHB is a Washington, D.C.-based trade association representing over 160,000 members involved in home building, remodeling and multifamily construction, property management, subcontracting, design, housing finance, building product manufacturing and other aspects of residential and light commercial construction. It is affiliated with 800 state and local home builders associations around the country. NAHB's builder members will construct about 80 percent of the new housing units projected for 2011.
